控制箱与主令控制器

Control Box & Master Controller

目录页码 Catalogue page: 43

该系列船用控制箱与船用主令控制器配合使用于控制起锚机或起锚绞盘，系泊绞车等交流变极变速异步电机的启动，制动，正反转变速的同时保护电机。该系列电控箱以及主令控制器适用于380V/50HZ、440V/60HZ两种电制，防护等级IP56。

This marine control box can control the starting, braking, running, back running, change speed and protection of three-phase pole-change multi-speed motors for driving machines, such as windlasses, warping capstan and mooring winches with the cooperation of the marine master controller. The rated voltage of the Control Box & master controller is 380V or 440V. The protection grade is IP56.

产品特点 Features

- 环境温度：-25℃ — +45℃
- 海上潮湿空气，油雾，盐雾
- 承受船舶营运时的振动和冲击，倾斜摇摆均不大于22.5
- Temperatures: -25°C to +45°C
- There are dewdrops, salt fog and oil fog
- There are shock and vibration: periodical vibration ± 22.5 , transverse slope ± 22.5
